

Data Sheet

C124 Handset

Cost effective entry level DECT

At a glance

- Increase accessibility
- Enjoy freedom and comfort of mobility
- Reduce communication costs
- High speech quality and security
- A simple, secure, wireless voice solution for office environments

The DECT handset C124 is a compact business handset for users who simply want to make and receive wireless calls while in the office. The C124 handset gives users improved mobility, accessibility, flexibility and comfort.

The DECT handset C124 provides mobile users all the basic telephone features required in a professional office environment:

- For optimal use and comfort the handset has been ergonomically designed
- Users have full control over their accessibility
- The illuminated graphic display allows the handset to be used in poorly lit environments
- The loudspeaker provides hands free operation with excellent sound quality
- The handset is provided with standard rechargeable batteries

- Personal contacts can be stored in the personal phone book
- With advanced call logging features no more calls are lost
- Different call control options are available and features are seamlessly integrated with the PBX
- Mobile DECT handsets keep the communication costs low
- Complies with the DECT standards for high quality speech and security (DECT authentication)

Key features

- Calling Name / Number, Call Logging
- Internal Directory: 40
- Headset compatible
